

# Lysando®

**Our strong commitment -  
creating a more sustainable and equitable world:**

## E Environmental

We have a sustainable solution that is quickly biodegradable and nontoxic, **protecting entire ecosystems** and promoting biodiversity.

We help to reduce the amount of antibiotic residues entering our oceans and environment, addressing the growing demand for **green pharma**.

We will halt the further increase of **antibiotic contamination** in animal-derived food.

## S Social

We ensure **fear-free hospital visits** and protect nursing and medical staff by providing a real solution to antibiotic resistance, a global public health threat.

We treat bacterial infections affecting people of all ages, health conditions, and immune statuses, reducing healthcare costs and promoting **health equity**.

We uphold diversity, ethical labor practices, and a strong commitment to **employee welfare** and safety.

## We are Green Pharma!

Artilysin® is environmentally-friendly: it exhibits no residual presence, resulting in zero accumulation in the environment, animals, or humans.

## G Governance

We foster a **diverse board composition** to ensure sound decision-making without undue influence or conflicts of interest.

We prioritize **patient-centered cures** for underlying infections, promoting accountability and transparency in decision-making.

We value **transparency** and provide clear information to stakeholders and investors, essential for responsible investing.

**Making a difference for  
real change in the world.**

More  
precisely

## Diversity

We embrace **varied perspectives** and backgrounds in our workforce through fostering geographic, religious, and cultural diversity.

## Gender equality

We actively include **women in leadership** and decision-making positions, fostering innovation and creating a more inclusive environment.

## Ethical standards

We uphold rigorous ethical standards through our **ethical committee**, examining and reflecting on decisions to ensure integrity, transparency, and social responsibility as we embrace our shared humanity and strive to do right and well for people.
