

Lysando Welcomes Healthcare Visionary Jorge Cortell to its Advisory Board

TRIESENBERG, Liechtenstein, 03 August 2023 – Lysando, the leading biotech in the field of antimicrobial proteins, proudly announces the addition of Mr. Jorge Cortell to its esteemed Advisory Board, marking a significant milestone in the company's growth and vision. As a renowned visionary in healthcare technology and a serial entrepreneur, he brings a wealth of expertise to Lysando's strategic direction.

As the Senior Advisor for Healthcare and Life Sciences, at Harvard University Innovation Laboratories, and a technology advisor to NLC, Europe's largest HealthTech Venture Builder, Jorge Cortell's distinguished background positions him as a thought leader in the global industry. His profound understanding of both, the tech and business landscapes makes him an asset in guiding Lysando towards new heights of success.

“At Lysando, our mission is centered on helping patients rather than simply selling treatments. The alarming reality of antibiotic resistance claims over a million lives annually worldwide, posing an existential threat to society. Moreover, the contamination of our environment by pharmaceuticals, particularly antibiotics, poses an alarming additional danger,” says Count Markus Matuschka de Greiffenclau, Chairman of the Board of Directors of Lysando AG. “With our Artilysin[®] technology, we are committed to combating resistance, promoting green pharma practices, and envisioning a future where bacterial infections no longer instill fear. As time is of the essence, we are delighted to have Jorge on board; a visionary who embodies innovation, comprehends AI, and supports Lysando's endeavour to save millions from the deadly grasp of pathogenic bacteria.”

“I am delighted to announce my appointment to the Advisory Board of this pioneer in the field of innovative antimicrobial solutions,” says Jorge Cortell, newly appointed Advisory Board member of Lysando AG. “Joining Lysando represents an exciting opportunity to contribute my expertise in cutting-edge technologies and their potential to revolutionize healthcare. I believe in Lysando's mission to address the global challenge of antimicrobial resistance and to improve patient outcomes through transformative therapeutic solutions. Together, we will strive to shape a healthier future by harnessing the power of science and innovation.”

Jorge Cortell's involvement on the Advisory Board promises to drive the company's mission, ultimately ushering in a future of improved and extended quality of life for all.

About Lysando AG

Lysando AG is market leader for antimicrobial proteins, so-called Artilysin[®] molecules. They can effectively eliminate problem-causing bacteria without associated high risk of resistance formation and microbial disbalances. Artilysin[®] constitutes an innovative, proprietary, and environmentally friendly technology with a wide range of applications.
